GRAPHIC DESIGNER · 3D ARTIST · AI AUTOMATION

A versatile creative professional with a rare combination of visual design, 3D animation, and software development skills. Experienced in producing print and digital campaigns, anamorphic city-scale videos, and AI-powered content pipelines. Working with clients and collaborators across Iraq, UAE, Syria, and Egypt.

EXPERIENCE

Graphic Designer & Office Operations — 2023

Hassarost General Contracting LLC · Emerald City Project · Kirkuk

- Sole employee at the Kirkuk office — independently handling all design, client communications, hospitality, and expense tracking for the Emerald City real estate development
- Producing promotional images, branded videos, and digital content published across the project's official platforms
- Trusted with full office responsibility, demonstrating reliability across both creative and operational functions

Graphic Designer & AI Automation Engineer — 2025

Royal Smells Perfumes · Remote · Iraq, UAE, Syria, Egypt

- Designing promotional materials including brochures, flyers, packaging, vehicle wrappings, and stickers for a luxury fragrance B2B brand
- Built Python and Django automation pipelines for batch AI-enhanced product photography and large-scale content generation using Google Imagen and Gemini API
- Collaborating remotely with a cross-regional team managed from the UAE

3D Artist & Motion Designer — 2025

Baghe Khatina Cosmetics · Remote · Iraq & UAE

- Modeling, texturing, and animating cosmetic products into high-quality 3D video presentations for client campaigns
- Work led to a direct collaboration with UAE-based artist Hadeel Al Azzawi — co-produced two anamorphic videos for Nogat Baghdad, the largest anamorphic screen in Baghdad
- Subsequently commissioned directly by Nogat Baghdad to produce a standalone Ramadan anamorphic video, praised by the company's management

Design Collaborator & NLP Developer — 2023

Diyako Hashemi — Kurdish Linguist & SaaS Platform · Kurdistan Region

- Graphic design and content production for a Kurdish-language educational platform with 5,000+ followers
- Co-produced a Kurdish dictionary endorsed by the Kurdish Language Academy (Erbil) — sold 400 copies on release day, a milestone the Academy highlighted on their official Facebook page
- Contributing to a Kurdish Sorani dictation SaaS — building NLP corpus pipelines and fine-tuning language models using Python, HuggingFace, and Ollama
